

Choose Your Energy: Change Your Life!: When You Fall in Love with Yourself, Everything Else Falls Into Place

When love transforms your relationship with yourself, it transforms your personal life, your work, and the world. When your birth includes a near-death experience, you know you are in for a wild ride. A fifty-five-year roller coaster of triumph and burnout led to finding my life purpose more than five decades later. Mine is a story of hope. Yours can be too. As a life coach, organization transformation consultant, Reiki master, artist, author, and broadcast personality, I have pursued a lifelong passion for the transformative power of love. I help people who are stuck in the hamster wheel approach to life. Trapped by fear and the mistaken belief that busyness is the same as purpose, they can't stand the way they're living but feel powerless to stop. As we work together, my clients discover what I discovered: when you fall in love with yourself, everything else falls into place, personally and professionally. Choosing love as your core energy automatically enhances every aspect of your life: your perceptions, opportunities, relationships, and priorities. You get unstuck, reclaim your personal power, and recapture your zest for living, moving yourself forward into a life you love. Instead of choosing to live as a victim of circumstance, consider embracing the transformative power of loving yourself unconditionally through insights, encouragement, clear strategies, and practical tools built on my personal journey, including a sustained eighty-pound weight loss, freedom from a ten-year bout of debilitating depression, and finding my purpose guiding others on their journeys; living in flow, a fluid Journey to Wholeness grounded in who you are being not what you are doing; the Discovery Framework that grew out of my experience, including core energy, sensory balance, and your personal board of directors; and Lessons in Living inspired by the journeys of my clients. What's love
