

Encyclopedia Terrorificus: The Deepest, Darkest, Dungeness Crab

She brought up... the Curse of the Blood-Curdling Crab! There's something wrong with the prize-winning crab Abilene brought up from the dark ocean waters - everybody who tries to give her grief ends up in hot water, and she's sure the crustacean has something to do with it. Can Abilene crack the case of how to stop the bottom-dwelling demon, or will the shelled monster continue to wreak its hard-shelled havoc?
