

Guide to Starting a Business

Starting any business is always a difficult challenge. In *Guide to Starting a Business*, Dr. Waters provides you with a comprehensive guide to getting a business up and running with little capital. Dr. Waters provides authoritative answers to these basic questions: How do I begin?, What business should I get into?, Where can I acquire capital?, and Where can I get reliable information? She dispels first-time entrepreneurial jitters by providing a blueprint of what to expect during the first few years of a business start-up. Culled from personal experience, research and knowledge, Dr. Waters make a compelling argument for people to take control of their lives by becoming their own boss. *Guide to Starting a Business* emphasizes the need for a strategic business plan and proper management of finances. Constructive suggestions on how to improve areas of weakness are also provided. Also included are links to local and government websites to assist you in the start-up and ongoing management of your business.
