

History of Spencer, Massachusetts, From Its Earliest Settlement to the Year 1860: Including a Brief Sketch of Leicester, to the Year 1753 (Classic Reprint)

Excerpt from History of Spencer, Massachusetts, From Its Earliest Settlement to the Year 1860: Including a Brief Sketch of Leicester, to the Year 1753

It cannot be expected in the history of a town situated in the interior, like Spencer, that many facts or incidents would have happened, connected with its earliest settlement, and but few events in the succeeding stages of its existence, would excite much interest in the general reader; and much less could this be expected of any thing relative to the present state of the town or its inhabitants. It may, however, lay some claim to antiquity, by being once a component part of Leicester, but the annals of its earliest period can exhibit no details of bloody conflicts with the Indian, nor can it boast of having produced any great and illustrious characters, either in peace or war. No exciting or interesting details of this kind, will form any part of this history. These pages are the humble effort of a native citizen of Spencer, and have been especially prepared for the benefit and gratification of his fellow citizens of the town. The writer of these sheets makes no pretension to the character of an accomplished writer, and indeed, the execution of such a work does not require much talent, or literary acquirements. All that is necessary, and all that may be expected, is a faithful detail of names, dates, facts, incidents and events, such as have occurred with little variation, in most of the towns of New England.
