

Reliability, Packaging, Testing, and Characterization of Moems/mems and Nanodevices XII: 4-5 February 2013, San Francisco, California, United States (Proceedings of SPIE)

Proceedings of SPIE present the original research papers presented at SPIE conferences and other high-quality conferences in the broad-ranging fields of optics and photonics. These books provide prompt access to the latest innovations in research and technology in their respective fields. Proceedings of SPIE are among the most cited references in patent literature.
