

River of Lost Footsteps: Sequel to Best Selling Novel Bo-gyi (Clan Campbell Dynasty Book 2)

River Of Lost Footsteps 1st ebook edition published May 2014 River Of Lost Footsteps is Jerome Nugent-Smiths second novel in the Clan Campbell dynasty series, set in Burmah between 1886 and 1894. The military war with King Thibaw has ended. He and Queen Supayalat are on their way to political exile in British India. Now it is time for the real warcommerceto begin. The battle for lucrative concessions, previously deigned royal monopolies, is uppermost in Alistair Campbells mind as he steps ashore at the oilfields of Yenangyaung. Waiting for him beyond the high cliffs are his commercial adversaries Charles Stewart, Robert Chisholm and de Trevelec. Left behind on the steamer, Thooreah, is his betrothed, Janet McGregor. British troops are stationed in Mandalay and control the Gem City. Throughout the former kingdom of Upper Burmah, dacoits (bandits), amongst others, roam freely in this lawless land staking their claim to the Lion Throne. They fervently believe that the British will leave, that the French will intervene, that the kingdom will be theirs. The Government of Great Britain has other ideas. So, too, do Alistair Campbelland his cunning and ambitious adversaries. The military and civil administrations have their hands full: it is one thing to win a three-week war, an entirely different task to territorially conquer and subdue an unknown nation the size of France. The race is on. River Of Lost Footsteps will have you enthralled to the final page as the story moves through a rich tapestry of characters and adventures on land and sea between British Burmah, Scotland, England and British India.
