

## Shenandoah County, Virginia: A Study of the 1860 Census, Volume 11

The eleventh, and final, installment of this valuable genealogical resource for researchers of Shenandoah Valley families contains the long-promised, comprehensive, every-name index listing each individual recorded in the census and also a number of ancillary facts and some analysis of the data. The first ten volumes of this eleven-volume series contain data from the haphazardly organized and annotated 1860 census, which is deciphered and presented as a companion resource to the original census materials. The census records include the number of people per family, their ages during the census, occupations held by family members, births, deaths, where buried, race, even histories of the land and area where they lived. This volume also includes an errata chapter containing corrections to those errors in the earlier volumes that have been reported. 2015, 5 1/2x8 1/2, paper, index, 518 pp
