

# Unlock Your Personalization

Life is short, and its limits are apparent. Living should bring happiness and pleasure, but most people have to cope with enormous problems, stemming from heavy workloads, stress, and anxiety. In our post-modern, techno-science world, every effort is being made to achieve a high standard of living. Still, few people find an effective solution for relieving stress and achieving their objectives in life. Unlock Your Personalization promotes an innovative and novel approach to achieving a good quality of life. The book is based on a unique and novel technique - C5 - which can improve an individuals quality of life. C5 offers a detailed introduction to five basic key parameters for strengthening the body and the mind - Concentration, Calmness, Confidence, Contentment, and Creativity - while also presenting lifes five stages - namely Innocence, Intelligence, Innovativeness, Involvement, and Infinity.
