

Whos Who in the City 1993

This reference aims to provide a source of information on whom to approach for companies wishing to take advantage of the growing range of services which the City provides. Among the fields covered are banking, stockbroking, insurance, fund management, commodity broking, accountancy, the law, professional advisers, senior figures in overseas financial institutions based in the UK, and institutions outside the Square Mile. The main biography section of this fourth edition gives up-to-date professional and personal details of 14,000 key figures in the UK financial community. The company index gives the addresses and telephone numbers of the companies at which these individuals are based and a sector index lists these companies by the service they provide. Lisa Williams has edited the 13th edition of The Grants Register and the previous edition of Whos Who in the City. She has also worked on The New Palgrave Dictionary of Economics and The Royal Horticultural Society Dictionary of Gardening.
